

AZ VIPERS
Viper Club of America - Arizona Region

February 19th ---- AZ Viper Club Dyno Day

*******RESPONSE NEEDED BY FEB. 16th**

Wonder how much power your Viper REALLY makes? Who has the absolute most powerful Viper in AZ? How much do those air filters help? How much power increase actually come from an aftermarket header/exhaust? Super Charged or Turbo Charged? This is the day for the answers. The plan:

Saturday, February 19th

9:00 Meet at DYNO-COMP,
8295 E. Raintree Dr, Ste A, Scottsdale, AZ 480-596-0500

Check out their web site at <http://www.dyno-comp.com> to see a high end dyno that allows for all kinds of tuning. They will be going over the technology of how dynos work, why Mustang and DynoJet give different readings, etc.

Got a supercharged Viper? No problem. This place has the equipment to monitor all kinds of things like "Live to Screen" results, exhaust gas temps, boost, and of course, Air-Fuel ratios.

COST: Just \$35.00 for current Viper Club members and \$55.00 for non-members This includes your Dyno test (3 pulls) and Lunch! (An incredible bargain since this package usually goes for \$70.)

Please call or fax to **480-391-0970** or send an e-mail to AzViperClub@aol.com today to reserve your lunch and Dyno Spot as space is limited.

8295 East Raintree Drive, Suite A
Scottsdale, Arizona 85260
